SUMMARY

Software Engineer with 7 years of experience building and maintaining high-traffic digital platforms using React and PHP. Experienced in delivering production-ready features, handling system performance issues, and collaborating across teams to build reliable and scalable applications. Familiar with API integration, system optimization, and maintaining stability in large-scale environments.

EXPERIENCE

PT. TRANS DIGITAL MEDIA (DETIKCOM) | WEB DEVELOPER (FRONTEND WEBSITE)

Nov 2021 - Present | Jakarta, Indonesia

- Led the implementation of new frontend features across multiple high-traffic news platforms serving millions of monthly users, ensuring consistency, reliability, and performance in production environments.
- Researched and evaluated modern frontend and backend practices, contributing to performance improvements, code maintainability, and better engineering workflows.
- Designed and maintained reusable modules across frontend and backend layers, supporting scalable feature delivery.
- Diagnosed and resolved production issues in high-traffic systems, improving performance, stability, and user experience.
- Implemented unit testing (Jest, PHPUnit) to improve code reliability and reduce production risks.
- Collaborated closely with backend engineers, QA, and product teams to ensure feature quality and timely delivery.
- Worked closely with backend services and APIs to ensure seamless data flow and system integration.
- Contributed to the development and maintenance of major digital platforms, including: cnnindonesia.com, cnbcindonesia.com, insertlive.com, beautynesia.id, haibunda.com, cxomedia.id, fyb.detik.com, rekomendit.detik.com

Tech Stack: PHP, React JS, JavaScript, Git, AMP, Jest, PHPUnit
Frameworks: Phalcon, ReactJS

PT. SIGMA CIPTA CARAKA (TELKOMSIGMA) | JUNIOR CONSULTANT TECHNICAL ERP

Jan 2019 - Nov 2021 | Jakarta, Indonesia

- Developed and customized integrated websites to meet specific client requirements, ensuring seamless interaction between frontend systems and Oracle databases.
- Managed and optimized Oracle E-Business Suite (EBS) databases to ensure efficient performance and data integrity.
- Engineered integration solutions between websites and Oracle DB, enabling smooth data exchange and real-time synchronization.
- Created detailed reports using Oracle SaaS, delivering actionable insights to support business decision-making and operational efficiency.

Technologies used: PHP, PL/SQL (Oracle), RTF Report, Oracle EBS, TOAD.

PT. LABEL INOVASI INDONESIA (LABEL IDEAS & CO) | WEB DEVELOPER (FRONTEND WEBSITE)

Nov 2017 - Dec 2018 | Jakarta, Indonesia

- Developed and implemented frontend websites from concept to completion, delivering visually appealing and functional digital platforms.
- Created new, custom websites based on client needs, ensuring high-quality design and usability.
- Built responsive websites optimized for various devices, enhancing user experience across mobile, tablet, and desktop platforms.
- Integrated animations and motion elements into websites, improving visual engagement and user interaction.
- Collaborated with cross-functional teams to implement CMS solutions and database integrations.
- Technologies: HTML, CSS, SCSS, PHP, MySQL, CMS
- Frameworks: CodeIgniter (CI2, CI3)

PT. IBM INDONESIA (IBM) | APPLICATION DEVELOPER (INTERNSHIP)

May 2017 - Nov 2017 | Jakarta, Indonesia

- Developed and enhanced frontend websites, contributing to the creation of user-friendly and visually appealing interfaces.
- Gained hands-on experience in backend development, supporting various project needs by integrating backend functionalities with frontend systems.
- Developed frontend mobile applications using modern frameworks, ensuring responsive design and optimal performance on mobile devices.
- Applied IBM Design Thinking principles to deliver user-centered solutions that align with client needs and expectations.
- Technologies: HTML, CSS, NodeJS, PHP
- Frameworks: Laravel, React Native, Ionic

EDUCATION

BINA NUSANTARA UNIVERSITY, JAKARTA, INDONESIA

Master of Management Information Systems

Focus on digital transformation, system integration, and business strategy. Strong technical depth.

GPA: 4.00

2024 – 2025

BINA NUSANTARA UNIVERSITY, JAKARTA, INDONESIA

Bachelor of Computer Science

GPA: 2.84

2013 – 2017 | GPA: 2.84

SKILLS

Technical Skills:

- Programming Languages: PHP, JavaScript (JS), SQL, HTML5, CSS3
- Frontend Frameworks & Libraries: React JS, Laravel, CodeIgniter (CI), Phalcon
- Backend & Database: PHP, MySQL, Oracle EBS, REST API Integration
- Tools & Others: Git, Unit Testing (Jest, PHPUnit), API Integration, JIRA, SonarQube, Kibana, TOAD,,

Other Skills (Optional):

- Performance Optimization
- Cross-functional Collaboration
- Project Management Tools: JIRA, Trello
- Production Issue Handling
